New Zero Waste Requirements in 2016

WE ARE ZERO WASTE BOULDER

In **June 2016**, the Zero Waste ordinance will take effect, requiring Boulder **landlords** to subscribe to recycling and compost hauling services, post zero waste signage and educate tenants on best practices. In **September 2016**, Boulder **businesses** will be required to recycle and compost, post zero waste signage and educate employees on best practices. To help Hill businesses face some unique challenges, city staff is available to work directly with landlords and businesses to develop solutions. Click [HERE](#) to apply for **start-up cost rebates** of up to \$1,000 per business, or to find out more about how to receive other assistance, visit: www.ZeroWasteBoulder.com.

Long-term Hill Reinvestment Recommendations Almost Complete

The **Hill Reinvestment Working Group** tasked with drafting recommendations to Council for long-term governance and funding mechanisms for Hill reinvestment will soon hold its third workshop to refine the recommendations. Priorities include service contracts to continue the cleanup efforts in the student-impacted areas of the Hill and to enhance existing 'clean and safe' efforts in the **Hill Commercial Area** (HCA). The group is exploring a blend of funding sources to support the HCA, including: increasing the **University Hill General Improvement District** (UHGID) mill levy to be more in line with the Downtown GID; a signage district pilot; and/or a time-limited agreement to reinvest a portion of the sales, property and admissions taxes into district improvements.
